Step 3 — All EFR Navigation

- Dropdown menu allowing you to select which year to view.

- The total number of fields that have an EFR and the sum of all the EFR acres for the selected year.

- The total number of EFRs per activity type. Supported activities include: Tillage, Planting, Spraying, Spreading, Harvest, and Forage Harvesting.

- Activity tiles that include the total number of EFRs and the total amount of worked acres.
  - ⓘ Select an activity tile to filter the EFR list by an activity type and view your EFRs.

Step 4 — Activity EFR Navigation
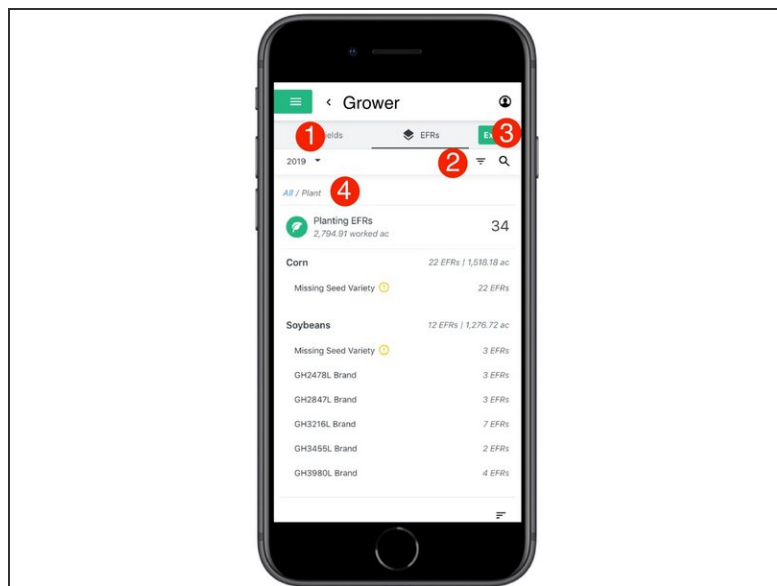

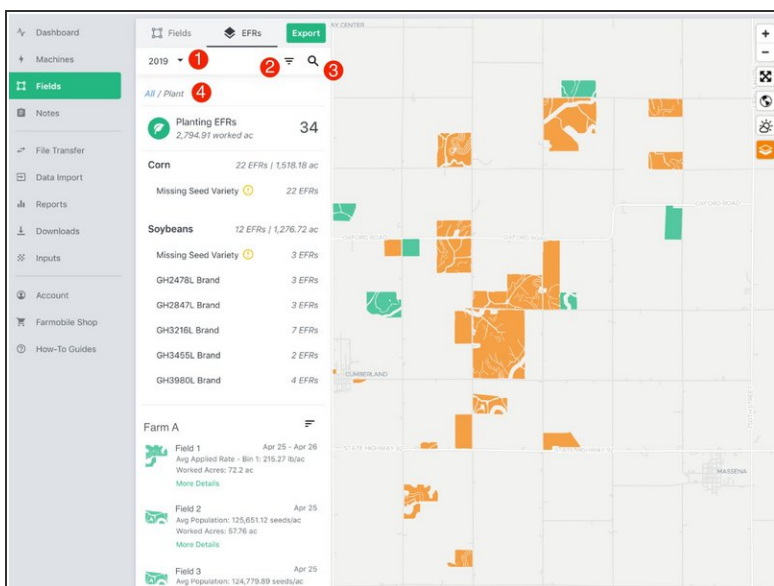

- Date Range Filter: Filter the EFRs to find EFRs created in the previous day, week, month, or year.

- Certification Filter: Filter the EFRs to see which EFRs have been certified or which EFRs still need to be certified.

- Search tool to quickly search by Farm or Field Name

- Navigation breadcrumb displaying each filter applied with links to quickly jump back up to a previous level.

Step 5 — Activity EFR Navigation Continued...
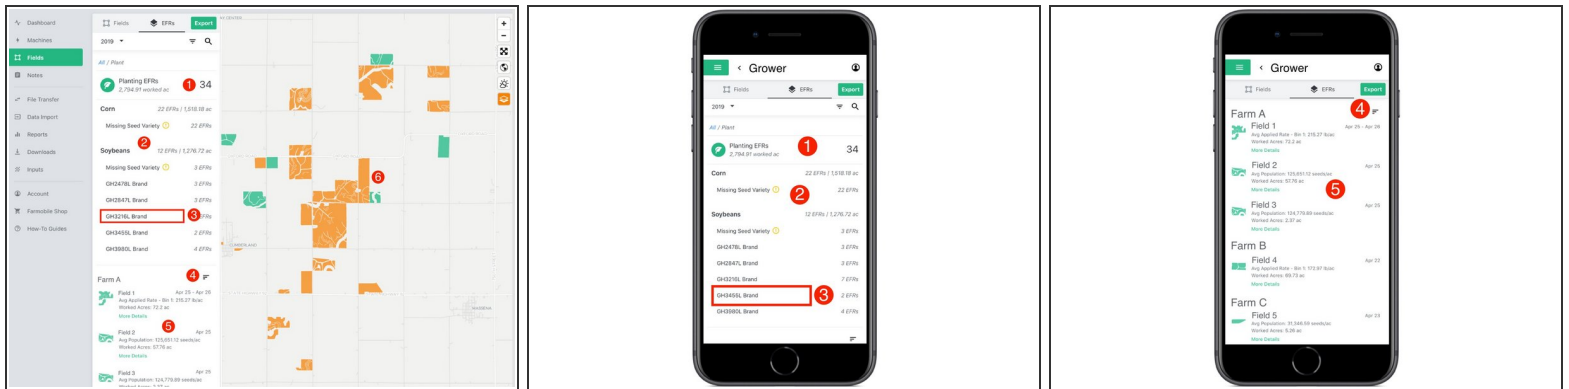

- Activity Tile: Displaying the total number of EFRs and worked acres for the selected activity type.

- Crop type & seed variety tiles: tiles displaying the total number of EFRs and worked acres by crop type and seed variety.

  (i) These tiles are only available for plant, harvest and forage activities.

  ⚠ Alerts are provided if EFRs are missing crop type or seed variety which are critical components of data integrity.

- Crop type & seed variety filters: Select any of these tiles to filter your EFR list by a specific crop type or variety.

- Sort EFR Menu: Expand this menu and sort the list of EFRs to quickly locate your data.

- List of EFRs that meet the filtered criteria. Select 'More Details' to view the entire EFR and certify. Select the EFR to navigate to the EFR Heatmap.

- Field boundaries are highlighted orange when they contain an EFR that meets the filtered criteria.
