Step 3 — Select the Planting Activity

- Select the Planting Activity Tile to view the list of EFRs for that activity and enable the sort EFR tool.

Step 4 — Select the Variety you would like to display

- Scroll down to the Crop and select the Variety you would like to filter the fields down to.

- The list on the left as well as the map on the right should filter down to only show the fields that have been planted with the variety selected.
