

Fleet Management Dashboard

Guide shows you how to update your default homepage from the Dashboard to Machines view

Written By: Support

The screenshot displays the Farmobile Fleet Management Dashboard. On the left is a sidebar with navigation items: Dashboard (highlighted), Machines, Fields, Notes, File Transfer, Data Import, Reports, Downloads, Inputs, Account (indicated by a red arrow), Farmobile Shop, and How-To Guides. The top header shows 'All Growers' and the user 'Jake Juarez'. The main dashboard area features a '52 Online' card with '184 Active Today' and a row of five colored status indicators (2, 12, 13, 7, 18). Below this is a 'Machine Utilization' pie chart for 374 Pucs, with categories: Working (44%), Turning (6%), Transport (23%), and Idle (27%). Other metrics include Run Time (1,686 h 22 m), Idle Time (458 h 19 m), Covered Acres (35.2k ac), and Fuel Usage (14.1k gal at \$3.65/gal). On the right, there are sections for 'EFR Certification Progress' and 'EFR Acres Progress'.

Step 1 — Fleet Management Dashboard

- Select the account button from any view within the Farmobile DataEngineSM platform.

Step 2

- Navigate to the Profile section
- Select your preferred view: Dashboard or Machines
- Hit the save button to remember your default homepage
- Whenever you load your account from now on, you'll be defaulted to the page of your selection.
- You can always be changed by repeating the steps in this guide.
