Step 1 — Select an EFR to share

- In the Fields tab, navigate to an EFR that needs to be shared.
  - Click on a field within your field list.
  - Or, select a boundary on the map to open the pop-up. Then select the pop-up.
- Before an EFR can be shared, it must be certified in order to verify that it is correct.

Step 2 — Certify the EFR

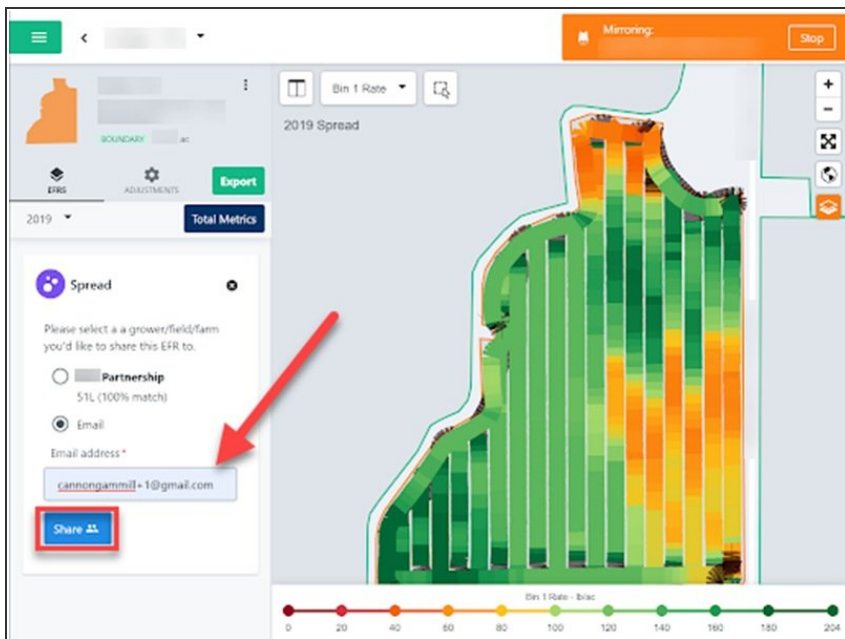

- Use the Ceritfy EFR guide to help with this step. [Quick Calculate](#)
- Review the data to confirm it is correct, then certify the EFR

Step 3 — Share the EFR with Farmobile account

- On the same ellipsis button, there will now be an option to share the EFR.

- When clicking on the share button, the name of users with common field boundaries will populate.

- Select who the EFR is to be shared with

  - In order to share an EFR, both Farmobile DataEngine℠ accounts must contain the same boundary to tie the shared EFR to. At this time, users are only given the option to share an EFR if a >95% boundary match exists

- Verify that sharing the EFR was successful
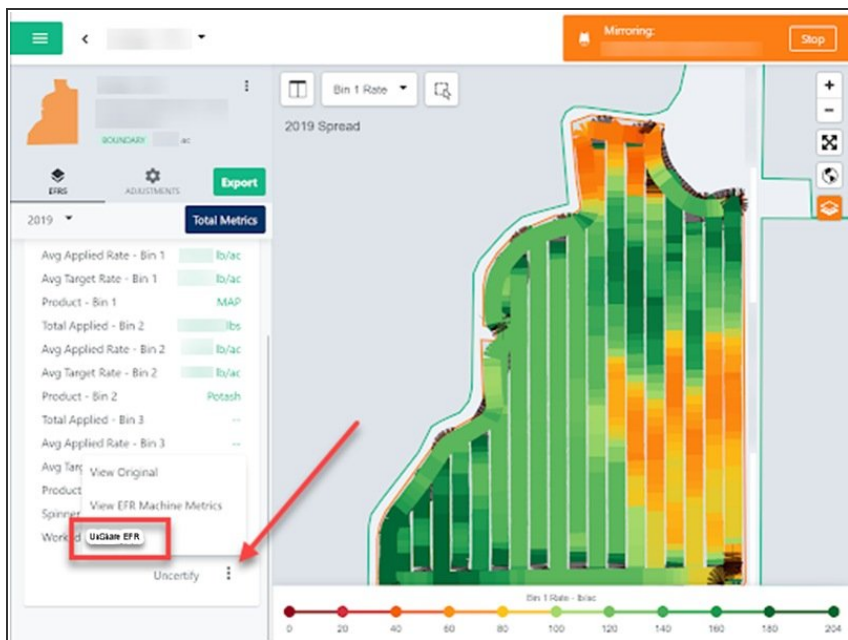

Step 4 — Share EFR with Non-Farmobile Account

- If the EFR is to be shared with a user that does not have a Farmobile account, select the circle and enter an email

- An email will be sent to the user notifying that there has been an EFR shared

This document was generated on 2021-12-21 03:51:38 AM (MST).

Step 5 — The Shared EFR

- The sharee will now be able to view the EFR
  - It will be noted that the EFR is shared and comes form an external source.
  - The EFR will also be a "Read Only" and will not be able to be edited by the user.

Step 6 — Unshare Your EFR

- The sharer will be able to unshare the EFR at anytime using a similar process.
  - Find the EFR that is shared and click the ellipses button.
  - Instead of a "Share EFR" button, there will be an "Unsheare EFR" button
  - Unshare the EFR
- Verify that the EFR is no longer shared by viewing the botton left corner
  - There will no longer be an icon that notes the EFR is shared
