Step 3 — Drop Pin

- Users can drop a pin in one of two ways:

- 1. If "Use your current Location" is selected, the will drop a pin at the current location of the device you are using.

- 2. OR, select anywhere on the Farmobile map window and click the spot you want to drop a pin.

Step 4 — Share Location

- Select either Google or Apple Maps, depending on the user's device.

- If the user is the person trying to navigate to the field, select "GO" and the location will open in Maps.

- If the pin is to be shared to another individual, select "Share". This allows the user to text their location.

- The pin location can also be copied to the clipboard if the user prefers to share the coordinates via email.
