

Edit Inputs

Edit an existing Input to update the variety name, crop type, or year.

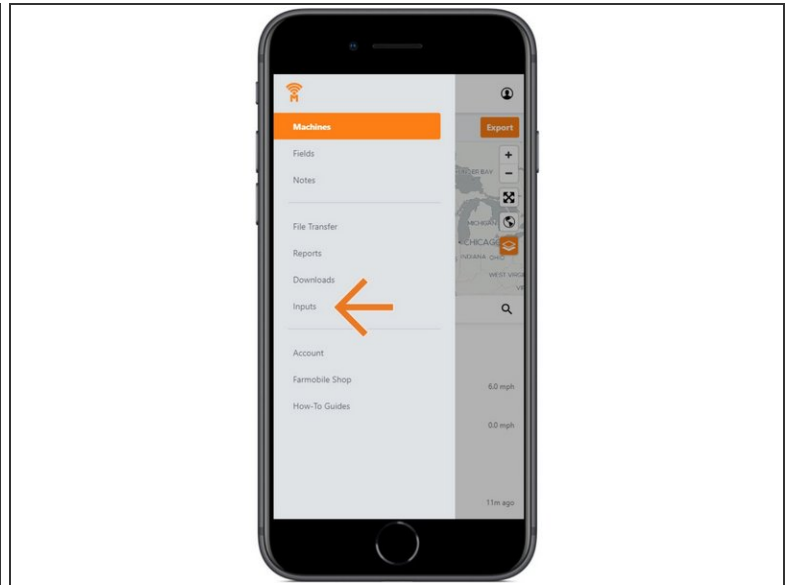

Written By: Support

The screenshot shows the Farmobile web application interface. On the left is a sidebar menu with options: Machines, Fields, Notes, File Transfer, Data Import, Reports, Downloads, **Inputs** (highlighted in purple), Account, Farmobile Shop, and How-To Guides. The main content area is titled 'Farmobile Support' and is divided into two panels. The left panel, 'FILTER INPUTS', has sections for 'CROP YEAR' (2019, 2018, 2017, 2016) and 'CROP TYPES' (Corn, Barley, Canola, Soybeans), each with a green toggle switch. The right panel, 'SEED VARIETIES', lists various seed inputs with their names, brands, and years. An 'EDIT SEED VARIETY' modal is open on the right, showing fields for 'Crop Type' (set to Corn), 'Crop Year' (set to 2019), and 'Seed Variety Name' (set to DKC54-36). At the bottom of the modal are 'Save', 'Cancel', and 'Delete Variety' buttons.

INTRODUCTION

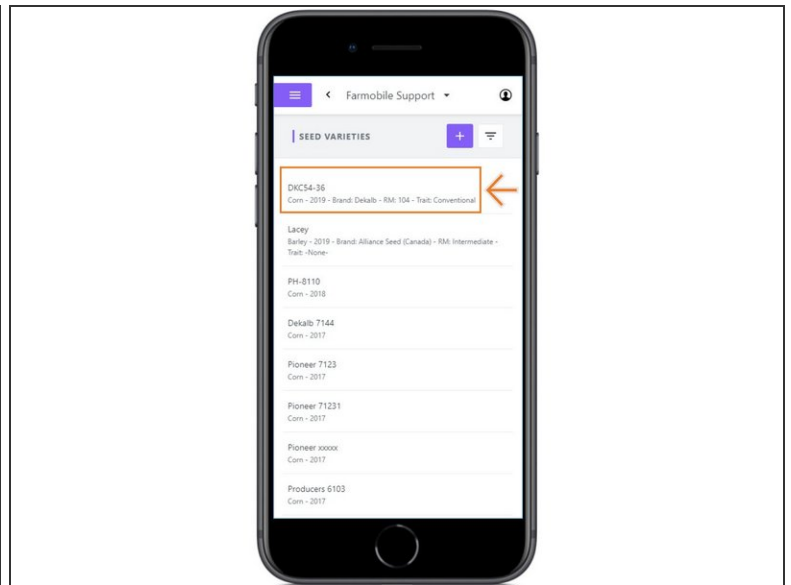

- User has the ability to edit an existing input to correct a previously entered value.
- If the Input record is supported by CDMS you can only edit the Seed Variety Name.
- If an input has been applied to a Certified EFR, you cannot edit the seed variety.

Step 1 — Select Inputs from the Farmobile DataEngineSM Menu

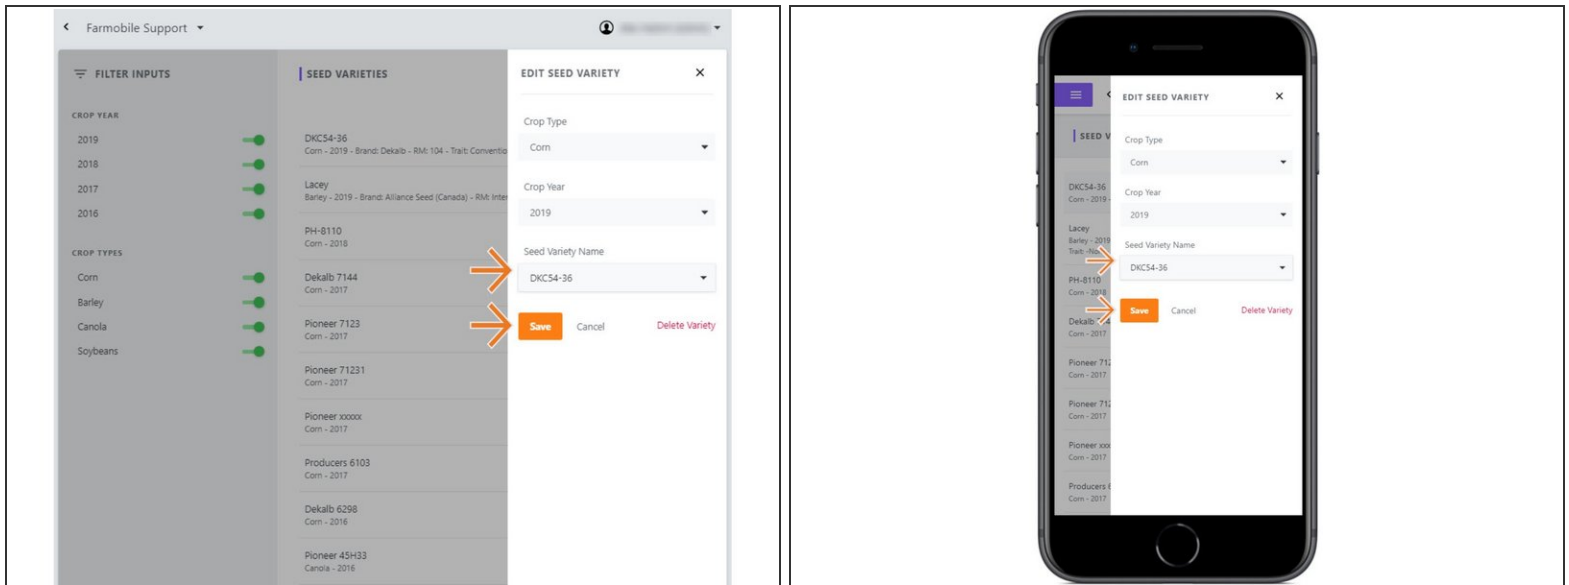

- Selecting Inputs from the Farmobile DataEngine menu will open the Inputs page with all of your inputs listed to review.

Step 2 — Select an Input from the list

- Select an Input record to open the Edit Seed Variety window.

Step 3 — Edit Input

- Within the Edit Seed Variety window, update the Seed Variety Name
- **NOTE:** You cannot edit an input if it has been associated to a Certified EFR.
- Select 'Save' to save the edits made.

Step 4 — Contact Support

- Support will re-run data for the most accurate data collection.
