

Add New Input

New Input in preparation for planting season.

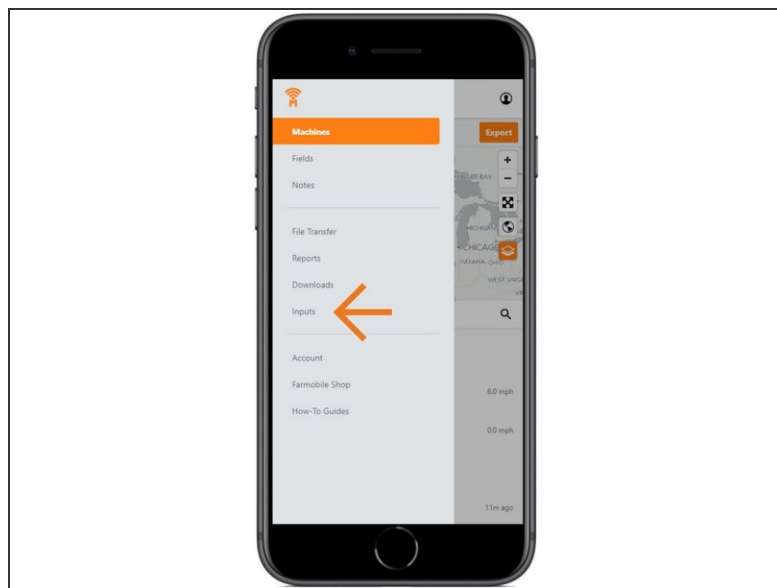

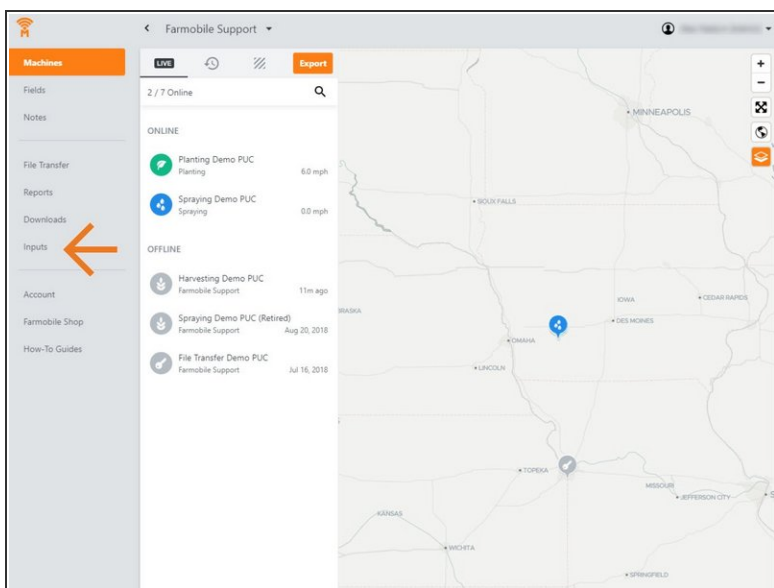

Written By: Support

The screenshot displays the Farmobile app's 'Inputs' section. On the left, a sidebar menu includes options like 'Machines', 'Fields', 'Notes', 'File Transfer', 'Data Import', 'Reports', 'Downloads', 'Inputs' (highlighted), 'Account', 'Farmobile Shop', and 'How-To Guides'. The main area is titled 'Farmobile Support' and contains two panels: 'FILTER INPUTS' and 'SEED VARIETIES'. The 'FILTER INPUTS' panel has sections for 'CROP YEAR' (2019, 2018, 2017, 2016) and 'CROP TYPES' (Barley, Corn, Canola, Soybeans), each with a green toggle switch. The 'SEED VARIETIES' panel lists various seed types with their corresponding years, such as 'Lacey Barley - 2019', 'PH-8110 Corn - 2018', 'Dekalb 7144 Corn - 2017', 'Pioneer 7123 Corn - 2017', 'Pioneer 71231 Corn - 2017', 'Pioneer xxxxx Corn - 2017', 'Producers 6103 Corn - 2017', 'Dekalb 6298 Corn - 2016', 'Pioneer 45H33 Canola - 2016', 'Pioneer P32T64PR Soybeans - 2016', 'Producer's 2204 Soybeans - 2016', and 'Producer's 2814 Soybeans - 2016'. On the right, a 'NEW SEED VARIETY' modal is open, featuring dropdown menus for 'Crop Type' and 'Crop Year', and 'Save' and 'Cancel' buttons.

INTRODUCTION

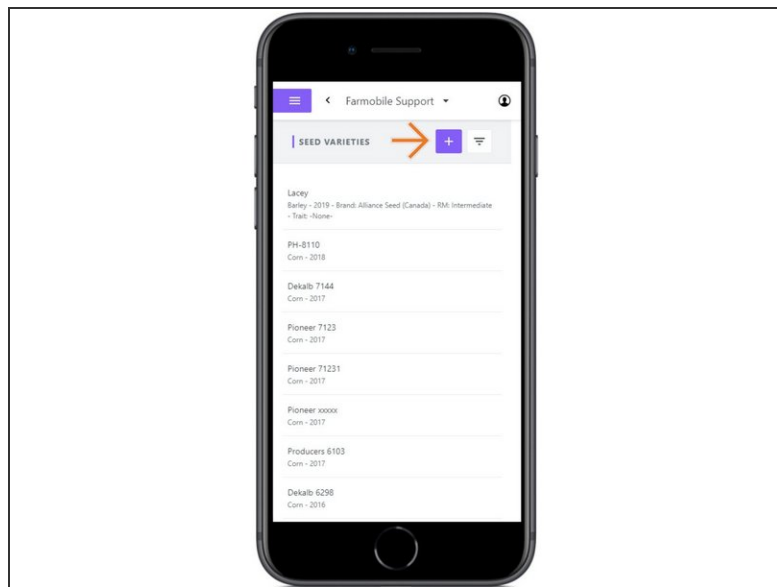

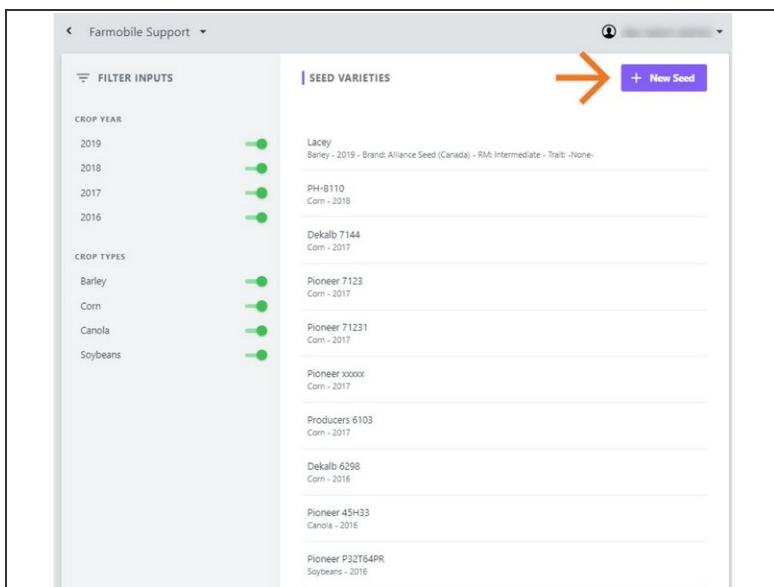

- Adding inputs is essential for data integrity and allows the user to add specific Seed Varieties to Planting Activity.
- Farmobile has integrated with Crop Data Management Systems, Inc to provide a standardized industry list of seed varieties to choose from.
- Once a Crop Type and Crop Year are defined, select or enter the seed variety name.

Step 1 — Select Inputs from the Farmobile DataEngineSM Menu

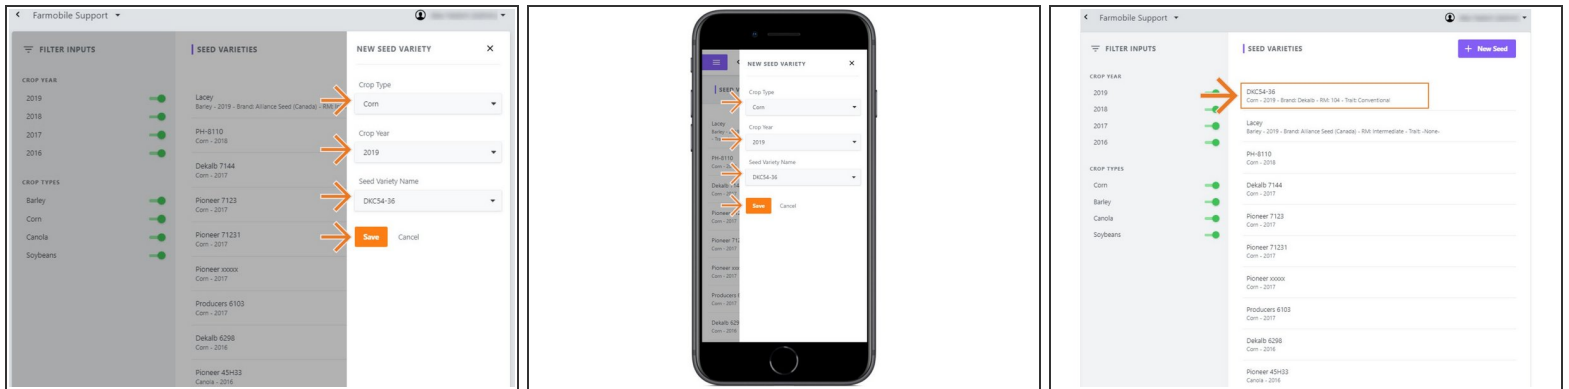

- Selecting Inputs from the Farmobile DataEngine menu will open the Inputs page with all your inputs listed to review.

Step 2 — Select Add Input

- Selecting '+ New Seed' will open the New Seed Variety form to add a new seed variety.

Step 3 — Enter Details and Save

- Select a Crop Type in the 'Crop Type' drop down menu.
- Select a Crop Year in the 'Crop Year' drop down menu.
- Select a Seed Variety Name in the 'Seed Variety' drop down menu.
 - Note: If the selected crop type is not supported, type the seed variety name in the text box.
- Select 'Save' to add the seed variety to your Input list.
