

Download File or Folder

Download a file or folder from the PUC to your computer.

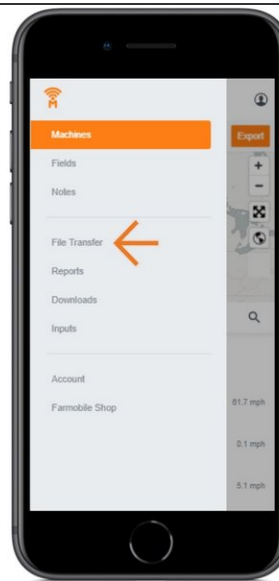

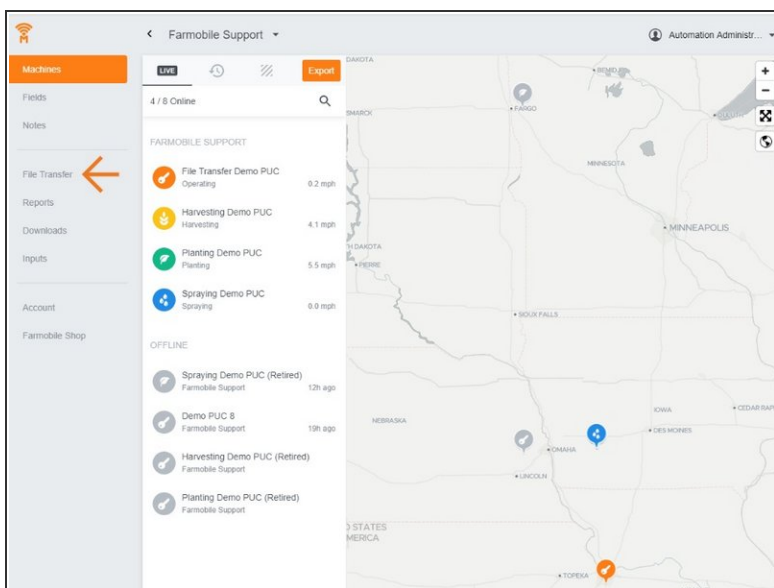

Written By: Support

The screenshot displays the Farmobile Support web interface. On the left is a sidebar with navigation links: Machines, Fields, Notes, File Transfer (highlighted in blue), Reports, Downloads, Inputs, Account, and Farmobile Shop. The main content area is titled "File Transfer Demo PUC" and includes details like "Farmobile Support", "Firmware 4.170000", and "MAC 0023A7CEDC68". It also shows statistics: "Last seen 25m ago", "14 files", "12 folders", and "3 pending items". On the right, the "FILE TRANSFER" section has "Download" and "Delete" buttons. Below, a list of items is shown: a folder named "Rx", a folder named "Test" with a "Pending creation" status, a folder named "viper", and a file named "Farmobile Harvest Data Out.lmt" which is selected (checked) and has a size of "3 kb" and a timestamp of "Oct 13, 2017 4:13 pm". The top right of the interface shows the user "Automation Administr..." with a dropdown arrow.

INTRODUCTION

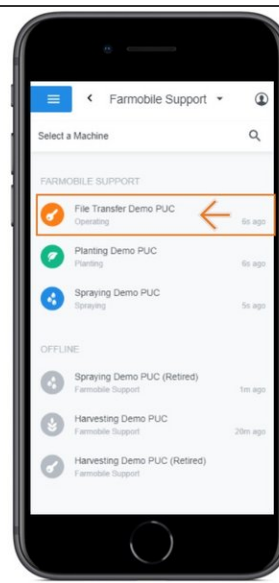

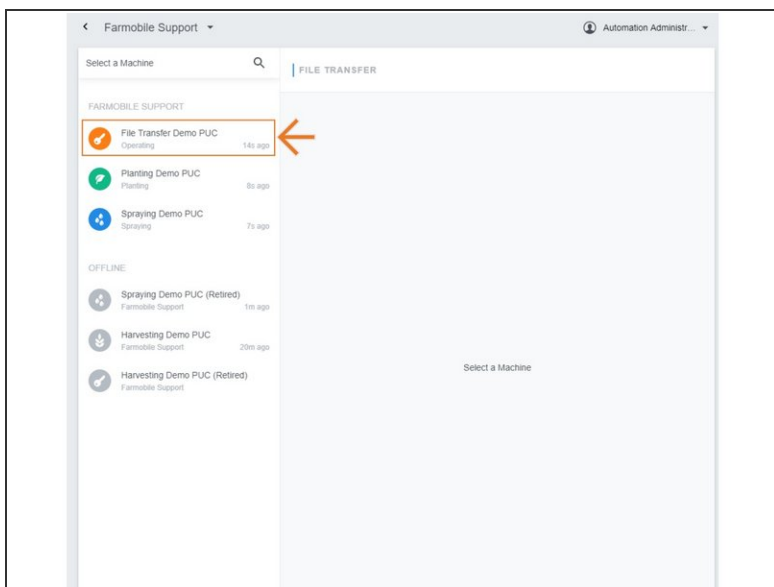

- User has the ability download files or folders from the PUC to a local device.
- Checking the box for a file or folder, updates the action buttons to enable download.
- When downloading a folder, all contents within the folder are downloaded and zipped into a compressed folder.

Step 1 — Select File Transfer from the Farmobile® DataEngineSM Menu

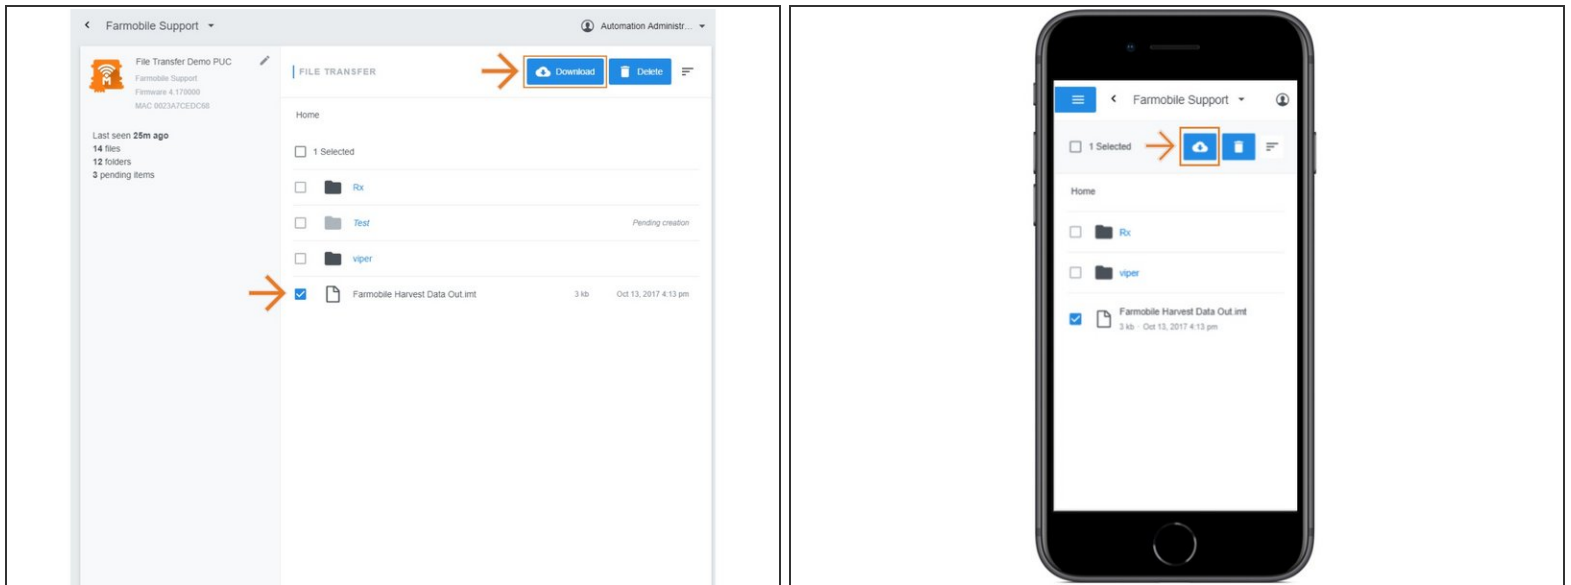

- Selecting File Transfer from the Farmobile® DataEngineSM menu will open the File Transfer page with all of you PUCs listed.

Step 2 — Select a PUC

- From the list of PUCs, select the required PUC to Upload a file or folder to.

Step 3 — Select a File or Folder and Download

- You can select all or just one.
- By checking the box of a File or Folder, the Upload button will turn into the Download button.
- Select the Download button to kick off the download process.
- Selecting a Folder will download all the files within.
- Your file or folder is downloaded directly to your browser so you can save and share!
