

Add New Folder

Add a New Folder to manage your files on the Farmobile PUC™ device.

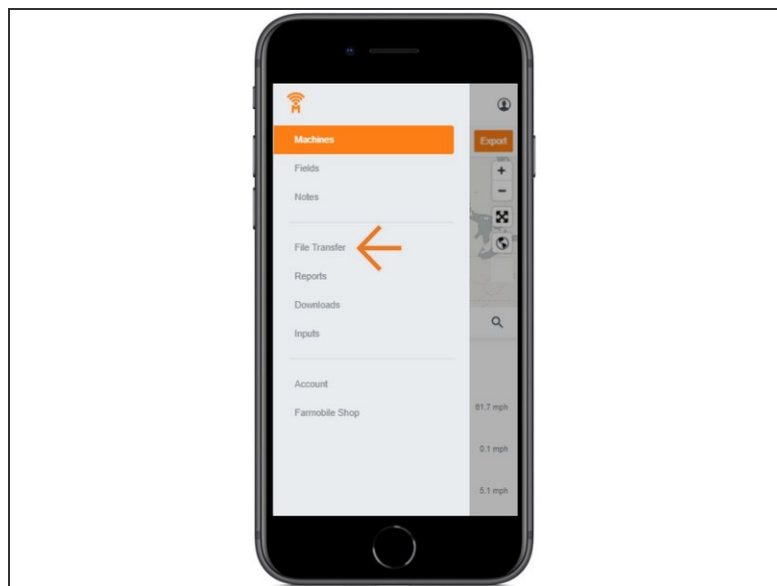

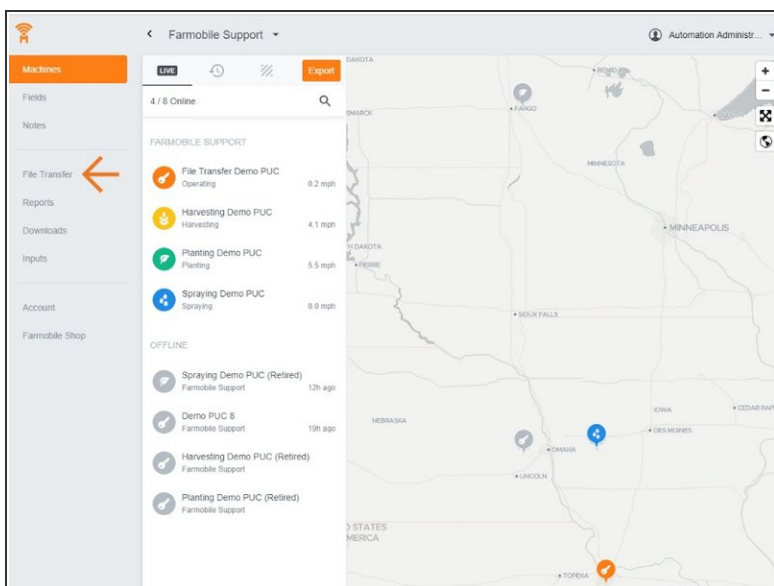

Written By: Support

INTRODUCTION

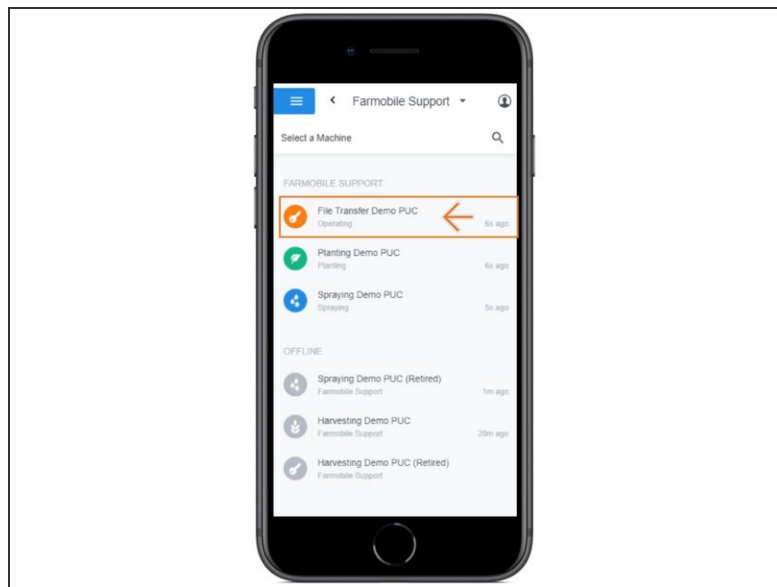

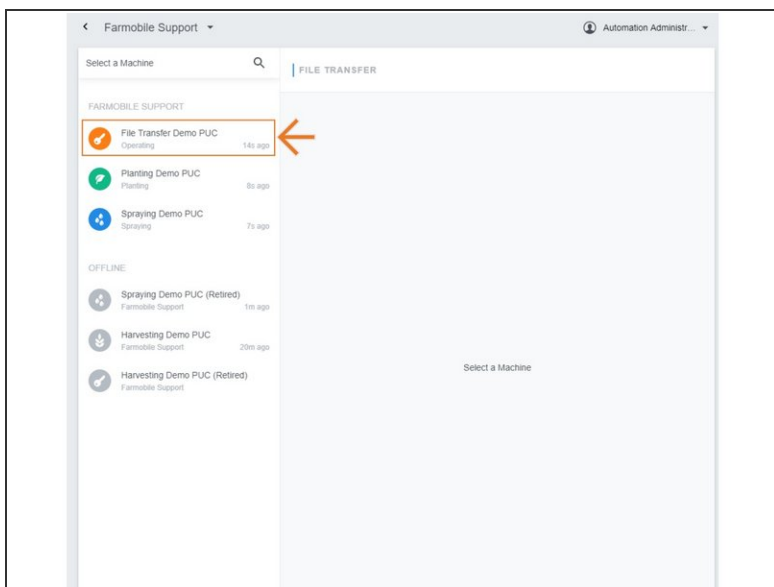

- The user can add folders to the Farmobile PUC™ devices for in-depth file management.
- Folders can be created as subfolders within previously created folders.

Step 1 — Select File Transfer from the Farmobile DataEngineSM Platform

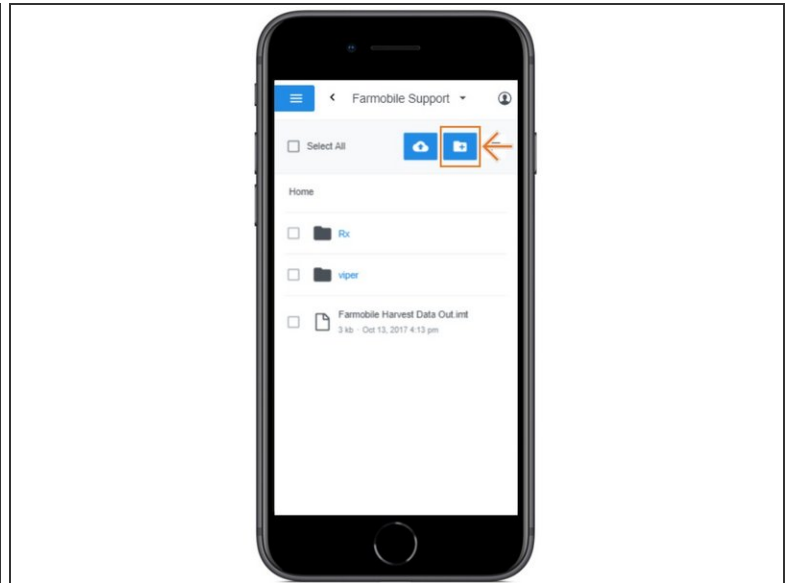

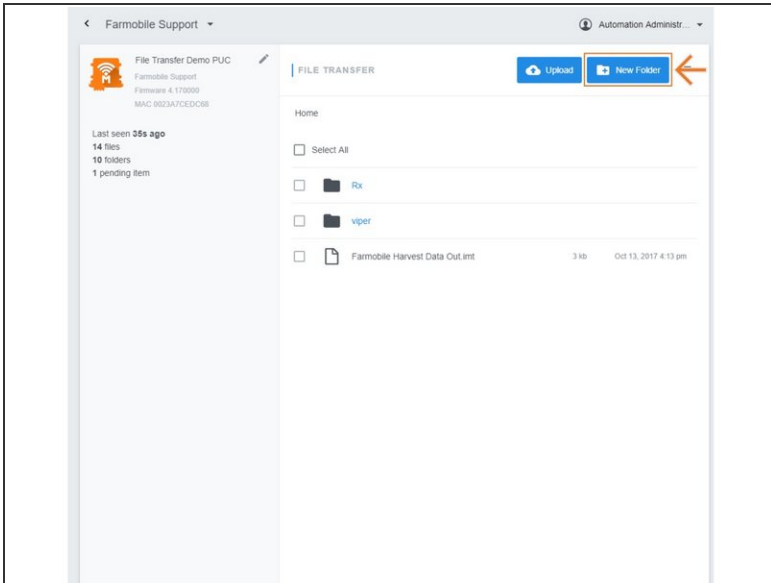

- Selecting File Transfer from the Farmobile DataEngine platform menu will open the File Transfer page with all of your Farmobile PUC devices listed.

Step 2 — Select a Farmobile PUC device

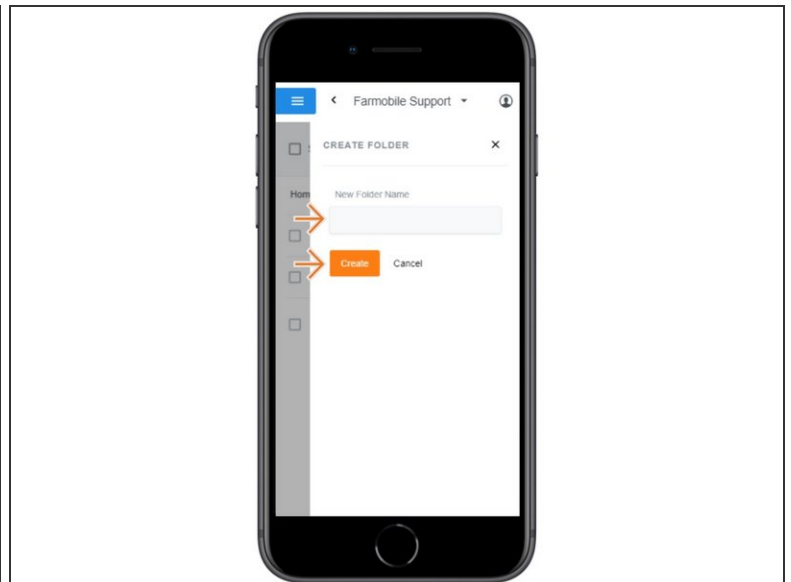

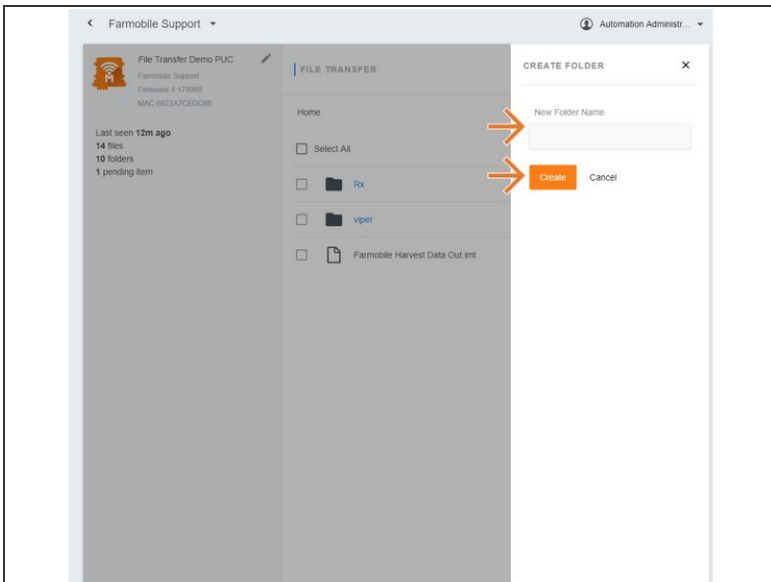

- From the list of Farmobile PUC devices, select the required device to add a 'New Folder'.

Step 3 — Select New Folder

- Selecting the New Folder button will open the 'Create Folder' window.

Step 4 — Enter Name and Select Create

- Enter the name for the new folder.
- Select 'Create' to add your new folder to the Farmobile PUC devices.
