

Edit Farm Name

Update an existing Farm Name to keep your records up to date.

Written By: Support

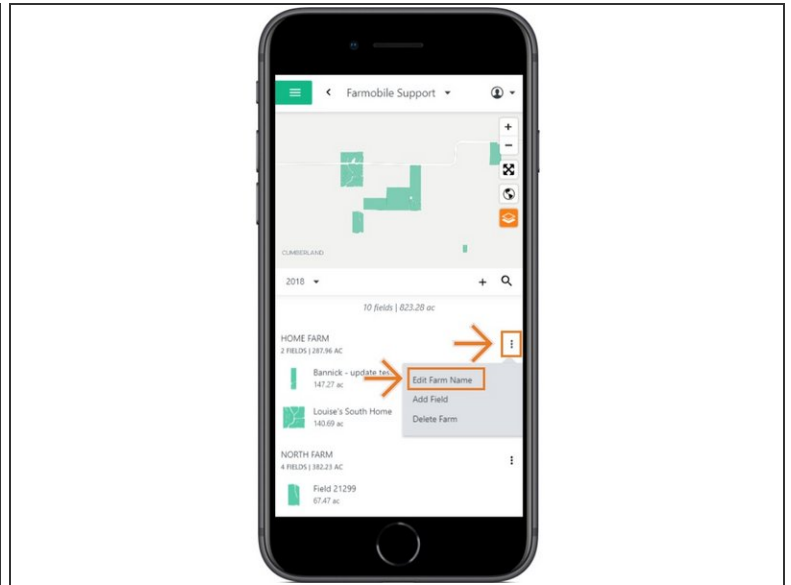

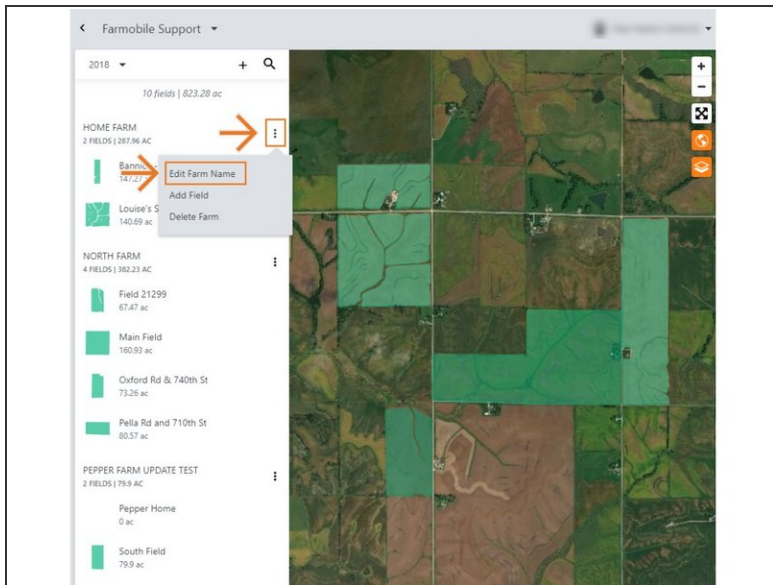

A screenshot of the Farmobile web application interface. On the left is a vertical sidebar with a grey background and a white border, containing a list of navigation items: "Machines", "Fields" (highlighted in green), "Notes", "File Transfer", "Reports", "Downloads", "Inputs", "Account", and "Farmobile Shop". The main content area has a light grey header with the text "Home Farm" on the left and a user profile icon with the text "Alex Hadorn (Admin)" on the right. Overlaid on this is a white "UPDATE FARM" dialog box with a close button (X) in the top right corner. Inside the dialog, there is a text input field containing "Home Farm". Below the input field is a note: "Note: All edits made to farms and fields are only applied to the selected crop year and are applied starting Jan 1 of the selected year." At the bottom of the dialog are two buttons: an orange "Submit" button and a grey "Cancel" button. The background of the main content area is a satellite map of a rural landscape with various green and brown fields. On the right side of the map, there is a vertical toolbar with five icons: a plus sign, a minus sign, a square with an X, a circular arrow, and a magnifying glass.

Step 1 — Select Fields from the Farmobile DataEngineSM Menu

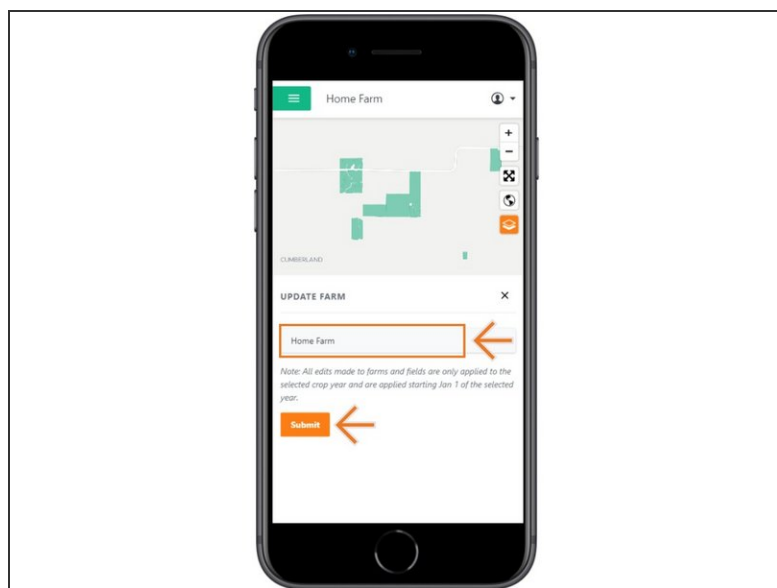

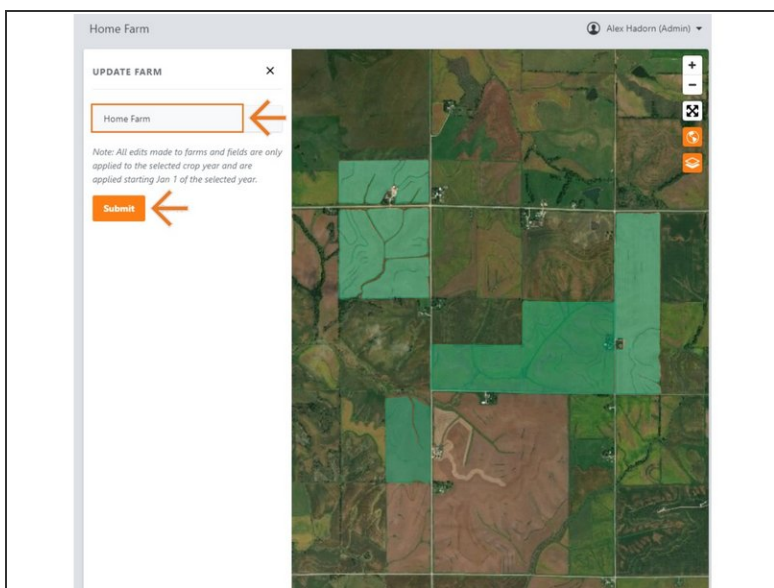

- Selecting Fields from the Farmobile DataEngine menu will open the Fields page with all of your Farms and Fields listed and displayed on the map.

Step 2 — Select Edit Farm Name

- For an existing Farm, select the ellipse button.
- In the menu, select 'Edit Farm Name'.
- This will open the Edit Farm Name window.

Step 3 — Edit the Farm Name and Submit

- Edit the Name of the Farm in the text box.
- This will update only the name of the Farm.
- Select 'Submit' to save your changes.
