

# Move Field to Farm

Move a field to another farm to keep your records organized and up to date.

Written By: Support

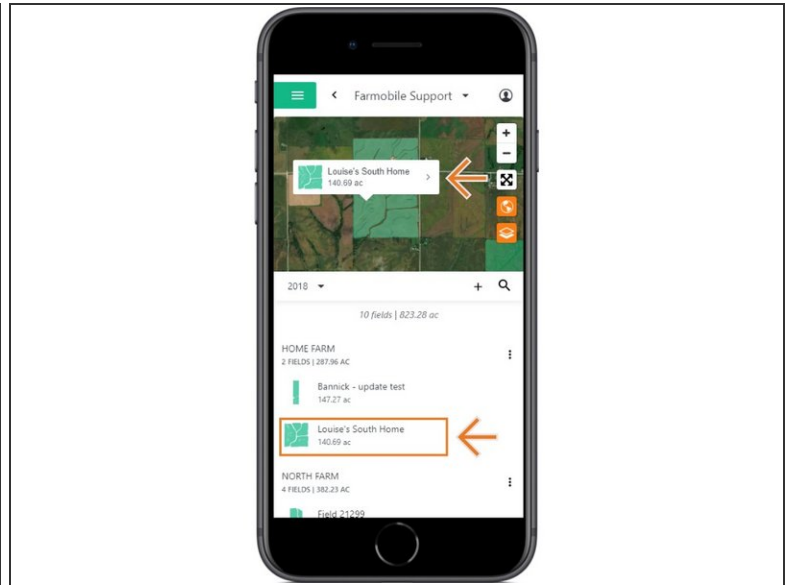

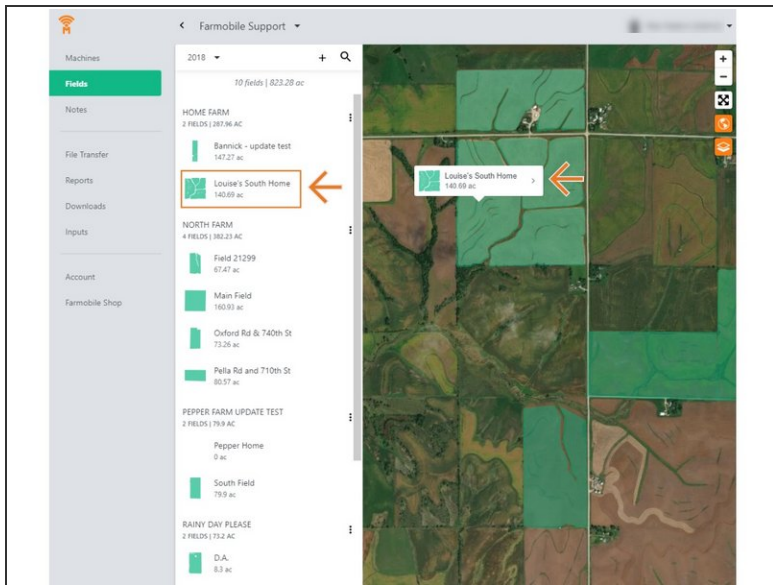

## Step 1 — Select Fields from the Farmobile DataEngine<sup>SM</sup> Menu

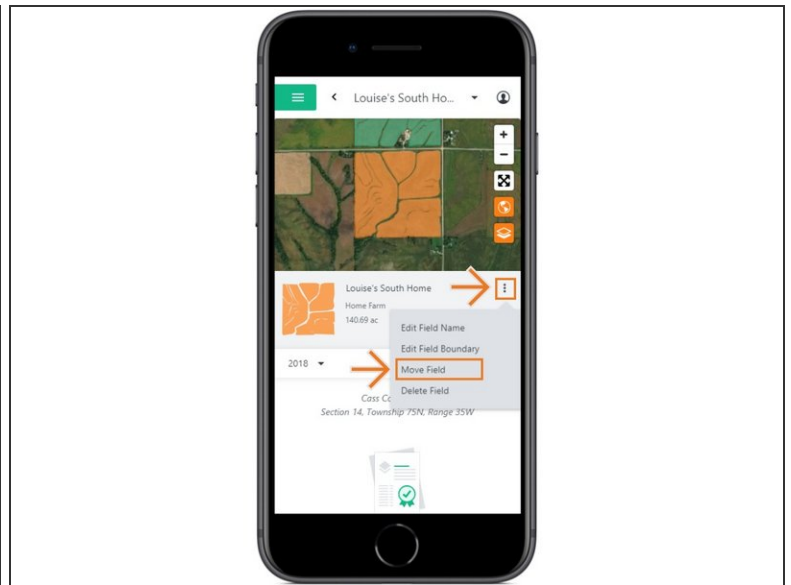

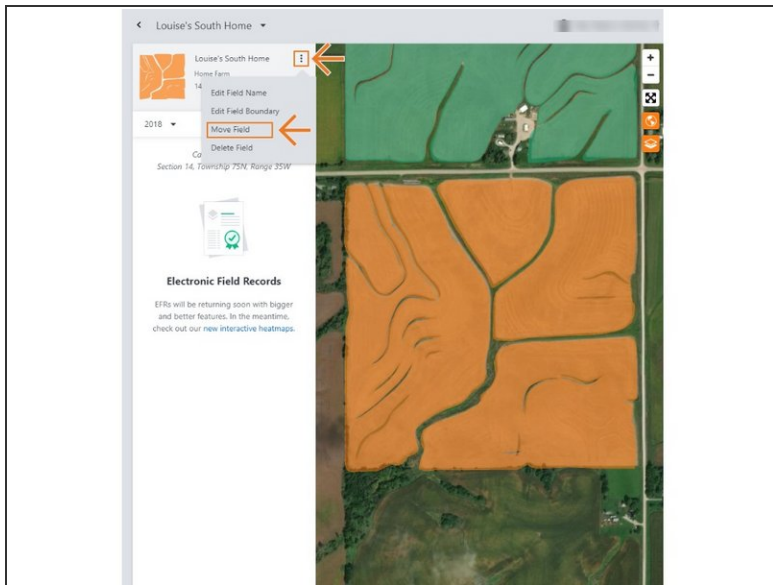

- Selecting Fields from the Farmobile DataEngine menu will open the Fields page with all of your Farms and Fields listed and displayed on the map.

## Step 2 — Select a Field

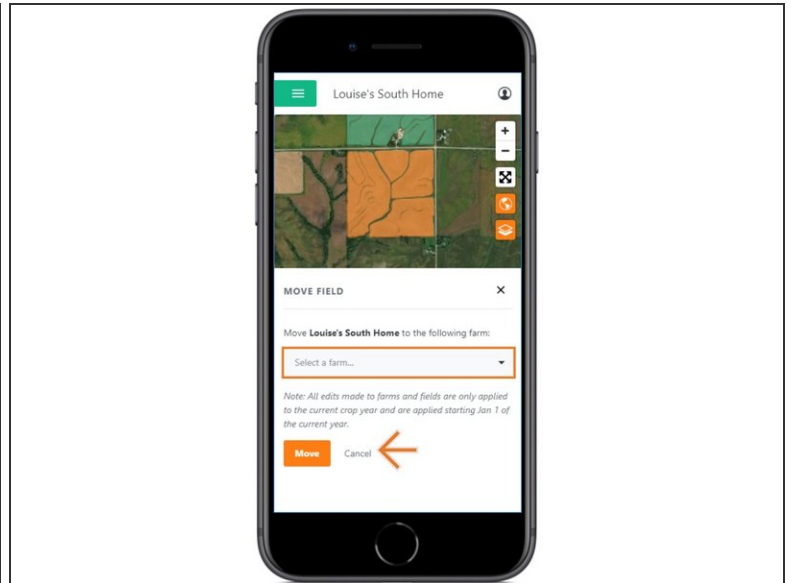

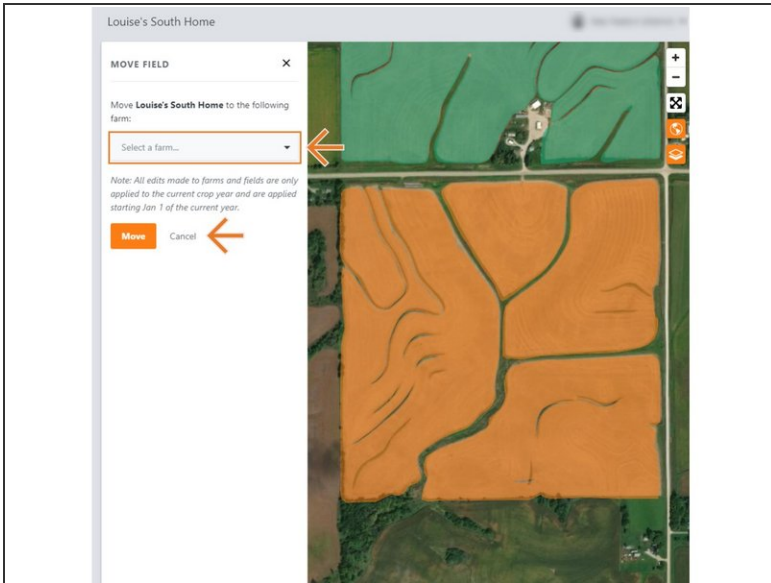

- Select a field to open the field details page.
  - Click on a field within your field list.
  - Or, select a boundary on the map to open the pop-up. Then select the pop-up.
- The field details page will open with the selected field highlighted orange.

## Step 3 — Select Move Field

- Select the ellipse button next to the field name.
- In the menu, select 'Move Field'.
- This will open the Move Field window.

## Step 4 — Move the Field

- Move the selected field to another farm within the same Grower.
- Use the drop down menu to select the new farm.
- Begin Typing in the drop down box to create a new Farm to move the field to.
- Select 'Move' to save the changes.
