Step 1 — Select Fields from the Farmobile DataEngine℠ Menu
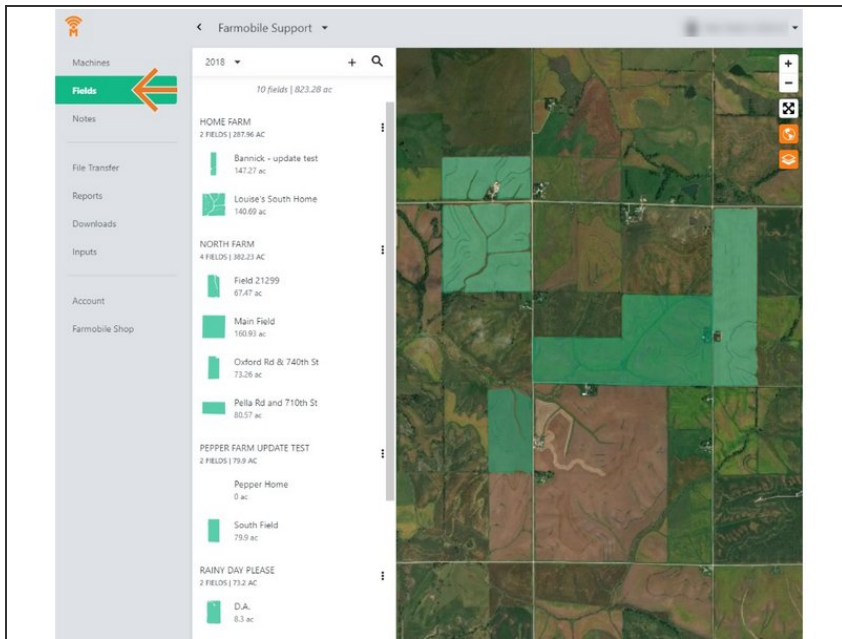

● Selecting Fields from the Farmobile DataEngine menu will open the Fields page with all of your Farms and Fields listed and displayed on the map.

Step 2 — Select a Field

● Select a field to open the field details page.

　● Click on a field within your field list.

　● Or, select a boundary on the map to open the pop-up. Then select the pop-up.

● The field details page will open with the selected field highlighted orange.

Step 3 — Select Edit Field Boundary
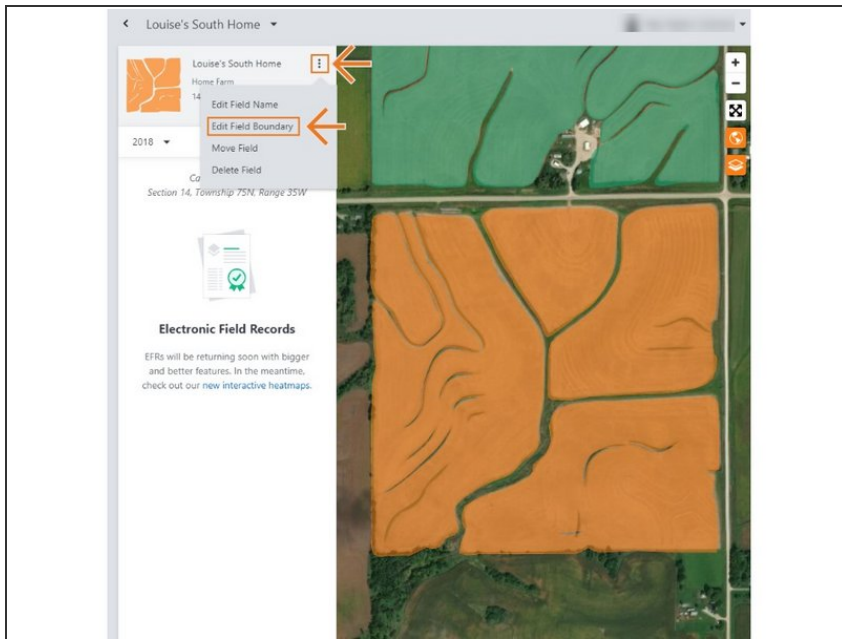

- Select the ellipse button next to the field name.

- In the menu, select 'Edit Field Boundary'.

- This will open the Edit Field Boundary window.

Step 4 — Edit Boundary and Save
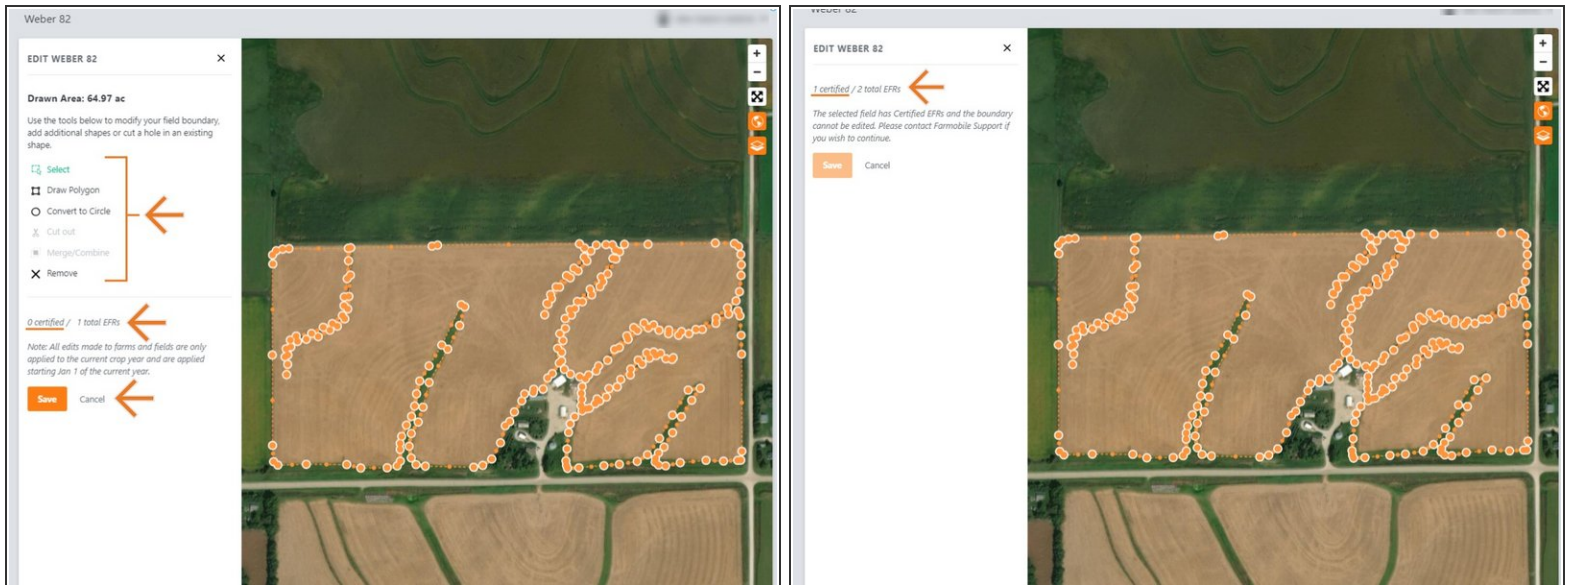

- Use the edit tools to edit the boundary.

- Boundaries are not allowed to overlap other boundaries.

- Draw an additional boundary and have multiple selected to enable the cut out and merge/combine tools enabled.

- Select 'Save' to save the new boundary.

- NOTE: If the field has a certified EFR you are not allowed to edit the boundary.

  - We prevent this edit to keep your certified data available for the Farmobile DataStore℠!

  - Select 'Cancel' to close the window.

  - Contact Farmobile Support if you wish to edit the boundary.
